LUNIK SMALL LIGHTS IN THE DARK

Who? Swiss superstars.

How's it sound? This band specialises in tender, heartfelt pop that gently holds you and soothes your soul. Melancholic opener *Everything Means Nothing* is a bittersweet treat, *How Could I Tell You* and *Born To Be Sad* are gently powerful and *I Can Just Be Me* caresses like a feather. *People Hurt People* briefly picks up the pace while *He's Quite Something* is wonderfully and unashamedly romantic.

Verdict:
A bright light.
